## GUIDE TO THE SOUNDIX SYSTEM USED IN ARRANGING INDEXES TO PASSENGER LISTS

The index cards reproduced in this microcopy are arranged according to the Soundix filing system. This system, alphabetic for the first letter of surname and numeric thereunder as indicated by divider cards, keeps together names of the same and similar sounds but of variant spellings.

To search for the name of a passenger arriving at Baltimore, you must first work out the code number for the surname of the passenger. No number is assigned to the first letter of the surname. If the passenger's name is Kuhne, for example, the index card will be in the "K" segment of the index. The code number for Kuhne, worked out according to the system below, is 500.

### SOUNDIX CODING GUIDE

Code	Key Letters and Equivalents
1	b, p, f, v
2	c, g, k, g, j, q, x, s
3	d, t
4	l
5	m, n
6	r

The letters a, e, i, o, u, y, w, and h are not coded.

The first letter of a surname is not coded.

Every Soundix number must be a 3-digit number. A name yielding no code numbers, as Lee, would thus be L 000; one yielding only one code number would have two zeros added, as Kuhne, coded as K 500; and one yielding two code numbers would have one zero added, as Ebell, coded as E 140. Not more than three digits are used, so Ebelsan would be coded as E 142, not E 1425.

When two key letters or equivalents appear together, or one key letter immediately follows or precedes an equivalent, the two are coded as one letter, by a single number, as follows: Kelly, coded as 400; Buerck, coded as 620; Lloyd, coded as 300; and Schaefer, coded as 160.

After determining the code number, such as K 500 for Kuhne, consult the contents listing for this microcopy, which gives the roll

breakdown, to locate the roll on which that code number appears. When looking at a particular roll you will see that if several names are coded as K 500--Kam, Abraham; Kana, A.; Kenny, Ann; Kohmi, August; and Kuhne, Adam--the cards will appear in the following order, alphabetical by given name: Kana, A.; Kam, Abraham; Kuhne, Adam; Kenny, Ann; and Kohmi, August. Divider cards are used to show most code numbers, but not all. For instance, one divider may be numbered 350 and the next one 400. Between the two divider cards there may be names coded 352, 350, 360, 354, 355, and 355, but instead of being in numerical order they are interfiled and arranged alphabetically by given name.

Such prefixes to surnames as "van," "Von," "Di," "de," "le," "Dl," "D'," "de la," or "du" are sometimes disregarded in alphabetizing and in coding.

The following names are examples of coding, and are given only to aid the user of this microcopy.

<u>Name</u>	<u>Letters Coded</u>	<u>Code No.</u>
Allrich	l, r, c	A 462
Eberhard	b, r, r	E 166
Engelbrethson	a, g, b	E 521

Handwritten musical notation on a page with five staves. The notation is dense and appears to be a musical score, possibly for a piano or organ. The first staff contains a series of notes and rests. The second staff continues the notation. The third staff shows a more complex arrangement with many notes. The fourth staff has a large rectangular block, possibly a placeholder or a specific musical instruction. The fifth staff also contains notes and rests. The handwriting is somewhat stylized and the ink is dark.

Dear Mr. [illegible]  
I have the honor to acknowledge  
the receipt of your letter of the  
10th inst. and in reply to inform  
you that the same has been forwarded  
to the proper authorities for their  
consideration.

I am, Sir, very respectfully,  
Your obedient servant,

Handwritten text on lined paper, possibly a letter or document. The text is written in a cursive script and is mostly illegible due to blurring. Some words are faintly visible, such as "Dear", "I am", "very", "kindly", "and", "with", "affection", "Yours", "truly", "and", "affectionately", "John V", "and", "Mary".

The figure consists of two separate line graphs. The left graph plots 'Rate of reaction' on the y-axis against 'Temperature (°C)' on the x-axis. The curve starts at a low rate at 10°C, rises to a peak at 40°C, and then declines at 50°C. The right graph also plots 'Rate of reaction' on the y-axis against 'Temperature (°C)' on the x-axis. This curve shows a steep, exponential increase in the rate of reaction as temperature rises from 10°C to 40°C, and then the rate begins to level off at 50°C.

00000000. 00.

WESER 100-7-1890

266

Figure 1 consists of two line graphs. The left graph plots 'Rate of reaction' on the y-axis against 'Temperature (°C)' on the x-axis. The curve starts at a low rate at 10°C, rises to a peak at 30°C, and then falls at 40°C. The right graph also plots 'Rate of reaction' on the y-axis against 'Temperature (°C)' on the x-axis. This curve shows a steady, exponential increase in the rate of reaction as temperature rises from 10°C to 40°C, after which it drops sharply.

Dear Mr. [Name]

Enclosed for you are two copies of the report on the [Project Name] which was prepared by the [Organization Name] and the [Department Name]. The report contains a detailed description of the work done during the past year and a summary of the results obtained. It also includes a list of the personnel who have been assigned to the project and a list of the equipment and materials used. The report is being submitted to you for your information and for your approval. It is hoped that the results of the project will be of interest to you and that the work done will be of value to the [Organization Name].

Sincerely,  
[Signature]

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$ . It is shown that the system has a solution for arbitrary values of the parameters  $\alpha$  and  $\beta$  if and only if the condition  $\alpha + \beta = 1$  is satisfied. In this case the solution is unique and is given by the formula

2. The second part of the paper is devoted to a detailed analysis of the properties of the solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$ . It is shown that the solution is continuous and differentiable with respect to the parameters  $\alpha$  and  $\beta$  and that it satisfies the boundary conditions (2) for arbitrary values of the parameters  $\alpha$  and  $\beta$ .

3. The third part of the paper is devoted to a numerical analysis of the solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$ . It is shown that the solution can be calculated with arbitrary accuracy by using the method of successive approximations.

THE  
LAW  
OF  
THE  
STATE  
OF  
NEW YORK  
IN SENATE  
JANUARY 18, 1891  
REPORT  
OF THE  
COMMISSIONERS OF THE  
LAND OFFICE  
IN RESPONSE TO  
A RESOLUTION  
PASSED BY THE SENATE  
MAY 18, 1889  
ALBANY: J. B. LIPPINCOTT & CO. PRINTERS.  
1891.

1. The first part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present and for the development of a sound policy for the future. The author points out that the study of history is not only a means of acquiring knowledge, but also a means of developing the ability to think critically and to make sound judgments.

2. The second part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present and for the development of a sound policy for the future. The author points out that the study of history is not only a means of acquiring knowledge, but also a means of developing the ability to think critically and to make sound judgments.

3. The third part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present and for the development of a sound policy for the future. The author points out that the study of history is not only a means of acquiring knowledge, but also a means of developing the ability to think critically and to make sound judgments.

4. The fourth part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present and for the development of a sound policy for the future. The author points out that the study of history is not only a means of acquiring knowledge, but also a means of developing the ability to think critically and to make sound judgments.

5. The fifth part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present and for the development of a sound policy for the future. The author points out that the study of history is not only a means of acquiring knowledge, but also a means of developing the ability to think critically and to make sound judgments.

1. The first part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author argues that without accurate records, it is impossible to make informed decisions or to identify areas for improvement.

2. The second part of the paper focuses on the various methods used to collect and analyze data. It compares different techniques, such as surveys, interviews, and focus groups, and discusses their strengths and weaknesses. The author also discusses the importance of ensuring the reliability and validity of the data collected, and provides tips for how to achieve this.

3. The third part of the paper discusses the importance of communication in the research process. It emphasizes that researchers must be able to communicate their findings clearly and effectively to their audience. The author discusses the importance of using appropriate language and formatting, and provides examples of effective communication.

4. The fourth part of the paper discusses the importance of ethics in research. It emphasizes that researchers must always act ethically and must be transparent about their methods and findings. The author discusses the importance of obtaining informed consent from participants, and provides tips for how to ensure ethical research practices.

5. The fifth part of the paper discusses the importance of the conclusion. It emphasizes that the conclusion should summarize the main findings of the study and provide a clear answer to the research question. The author discusses the importance of using appropriate language and formatting, and provides examples of effective conclusions.

The following is a list of the  
 names of the persons who  
 have been elected to the  
 office of the President of the  
 United States since the year  
 1789. The names are given  
 in alphabetical order, and  
 the year of election is given  
 in parentheses after the name.  
 The names of the persons who  
 have been elected to the  
 office of the Vice President  
 are given in parentheses after  
 the name of the President.  
 The names of the persons who  
 have been elected to the  
 office of the Speaker of the  
 House of Representatives are  
 given in parentheses after the  
 name of the President.

Dear Sir  
I have the honor to acknowledge the receipt of your letter of the 27th inst. in relation to the above matter.  
I am sorry to hear that you are not satisfied with the result of the examination of the papers in your possession.  
I have, however, no objection to your making such further investigation as you may deem proper.  
Very respectfully,  
J. H. [Signature]
